

# PLATELET STORAGE SYSTEMS

i.Series Bezel - Featuring the i.Center

i.Center Home Screen

Horizon Series Bezel - Includes a combined temperature controller and alarm system.

Helmer offers three floor model platelet incubators. These units feature controls at eye level. Choose from a two shelf (PC2200i or PC2200h), or three shelf (PC3200i or PC3200h) model that houses the PF96i or PF96h platelet agitators. The PC4200i and the PC4200h are the largest capacity platelet incubators available. They feature a built-in agitator with a capacity of 396 random platelet bags.

## Models Available:

<u>i.Series</u>	<u>Capacity</u>	<u>Horizon</u>	<u>Capacity</u>
PC2200i	2-PF96i	PC2200h	2-PF96h
PC3200i	3-PF96i	PC3200h	3-PF96h
PC4200i	Built-in	PC4200h	Built-in

## PLATELET INCUBATORS

Helmer is the leading manufacturer of Platelet Storage Systems. We have a full line of incubators that range in size from compact countertop units to large floor models. These units are available in either the i.Series line or the value-conscious Horizon Series line. All Helmer incubators provide dependable storage and continuous monitoring of platelets.

Our i.Series line features the i.Center™ Integrated Monitoring System, which provides unprecedented levels of security for your valuable platelets. (See i.Center page for complete information). All platelet incubators have bacteria-resistant powder coated exteriors, interiors, and door handle(s). Helmer Platelet Incubators are designed to accommodate our Platelet Agitators. The exclusive Agi-Trak System monitors the function of the i.Series platelet agitators when placed inside an i.Series incubator. Agi-Trak features an RPM validation screen, agitator count and alarm logs, plus an agitator cycle counter.

## Floor Model Platelet Incubators

Models shown: PC2200i, PC3200i, PC4200i.  
(PC2200i & PC3200i shown with PF96i agitators. Sold separately.)

# PLATELET STORAGE SYSTEMS

## Countertop Platelet Incubators

Models shown: PC900i/PF48i, PC1200i/PF96i, PC100i/PF15i.  
(Incubators and agitators sold separately.)

Our countertop platelet incubators provide the security of a continuously controlled temperature environment with an efficient use of counterspace. Top mounted controls, alarm monitor and recorder are positioned for convenient access.

### Models Available:

<u>i.Series</u>	<u>Capacity</u>	<u>Horizon</u>	<u>Capacity</u>
PC100i	1-PF15i	PC100h	1-PF15h
PC900i	1-PF48i	PC900h	1-PF48h
PC1200i	1-PF96i	PC1200h	1-PF96h

## PLATELET AGITATORS

Models shown: PF15i, PF48i, PF96i.

Helmer Platelet Agitators offer a range of storage capacities. Large diameter rollers allow the drawer storage platform to glide, eliminating the need for ball bearings which wear down and squeak. Sturdy, one-piece perforated drawers with non-slip textured coating provide complete air circulation for your platelets. i.Series platelet agitators feature a built-in motion alarm. When placed in an i.Series incubator, the agitator can be monitored by the i.Center with the Agi-Trak system. Horizon Series agitators are not equipped with a motion alarm.

Model PF396i

### Agitator Capacities:

PF15i or PF15h	15 Random Bags / 5-10 Apheresis Bags
PF48i or PF48h	48 Random Bags / 16 Apheresis Bags
PF96i or PF96h	96 Random Bags / 32 Apheresis Bags
PF396i	396 Random Bags / 132 Apheresis Bags

PAS20 and PAS40 Platelet Rotators are also available. Contact your distributor for more information.

\*Please note: Horizon Series agitators are not equipped with a motion alarm and cannot be monitored by the i.Series AgiTrak system. Horizon agitators are not recommended for use in an i.Series incubator.
